

Beneficiary Management System (BMS)

Beneficiary Management System (BMS) is a web-based application developed by the **Ilm-o-Amal Association**. The Members of the Association can access it anytime, and from anywhere through an Internet connection. BMS provides a secure and collaborative environment to the Members of the Association to:

- Launch Welfare Projects
- Manage Beneficiary Information
- Manage Applications
- Manage Payment/Disbursements
- Collaborate with other Members
- Share information & discuss ideas
- Download documents and forms

It requires a valid 'Username' and 'Password'. It is hosted in a secured environment. It is developed with software tools under GNU Public License including PHP and mySQL database.

6 steps in the process:

Step 1: Interview the Beneficiary and complete form "B10 – Beneficiary Registration".

Step 2: Complete form "B20 – Beneficiary Application".

Step 3: Login to the BMS and create the Beneficiary and the Application under the relevant Projects. Automatic email is sent to the relevant office bearers to take necessary actions.

Step 4: Office bearers review and approve. An automatic email is sent to the Coordinator.

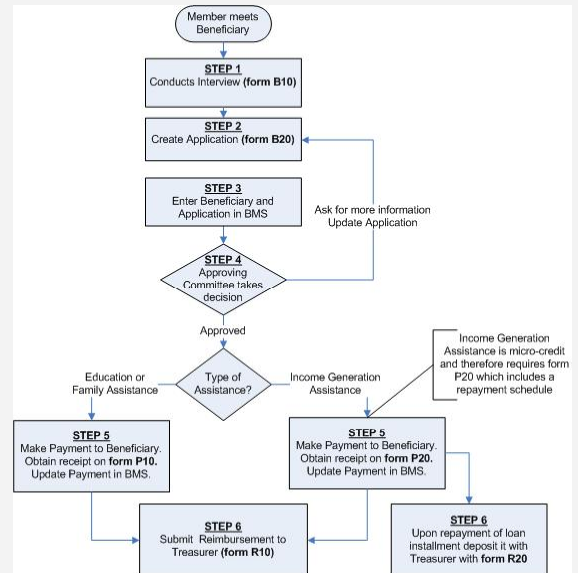

Step 5: Coordinator investigates and with the help of field volunteer fulfills the need and updates the BMS.

Step 6: Coordinator processes reimbursements.
